JOB EXPERIENCE

VIDEO EDITOR

Over the years, I've done video editing work for a number of social media clients. Additionally, for more than a year, I edited videos for the "Trending Tales" YouTube channel.

GRAPHIC DESIGNER

Since learning the required skills, I never stopped creating logos, designing thumbnails, posters and editing videos for multiple clients using the Adobe Suite software programs.

MARKETING MANAGER

In the new digital era the need for digital designs (logos, posters, e-invites and many more assets) has grown significantly. Hence I became a freelancer to take advantage of this and have now created multiple designs for clients.

PASSIONS

STORYTELLING USING FILMS

Passionate about crafting compelling narratives and bringing stories to life through the magic of film and video editing.

FITNESS AND WELLNESS

Enthusiastic about personal health and wellness, often exploring new ways of integrating fitness into creative content.
